

Questions to ask before purchasing a Hot Water System!

Answering these questions will assist in determining the best hot water system for you and will help determine:

- ▶ Which fuel source - gas, electric or solar
- ▶ What capacity of the unit
- ▶ What recovery rate is required
- ▶ The most economical to run
- ▶ What safety features are required

Please answer the following questions:

1. How many bathrooms do you have in your home?
2. How many people live in your home?
3. How many children live in your home and how old?
4. How many bedrooms do you have?
5. Do you wash your clothes with hot, cold or warm water?
6. Is your dishwasher connected to the hot water?
7. Do you have a spa bath?
8. Do you have gas and/or electricity connected to your home?
9. How many years do you plan to live in the home?
10. Do you want an energy efficient system that will reduce long term running costs?
